RIDE SHARE PROGRAM

Ted Ceasar presented information on the research performed by Inland Transport Services who studied the transportation needs of IVC students. The findings support implementation of a Ride Share Program. This research project was funded by the Imperial Valley Association of Governments (IVAG) which is a part of the Imperial County Public Works Department. The key findings reflect the following:

- Student enrollment and full-time students has significantly increased;
- There is insufficient student parking to accommodate peak demand;
- There are limited transportation choices which reduces access to campus for some students;
- Improved access to the campus would decrease congestion, improve safety, and decrease travel time.
- Transit is well received by students, especially express service;
- Additional transit service is needed, especially express routes;
- More transit advertising on campus is needed;
- A formalized student carpool program would be welcomed;
- Providing incentives for carpooling would increase student carpools.

The Student Affairs Committee will consider this information and make a recommendation to College Council before it goes back to IVAG.

M/S/C M. Boenheim/E. Silva to adjourn the meeting at 3:20 p.m.
