4. Summer Session – enrollment is ongoing, there are still lots of spaces available in face-to-face classes, nearly all online sections are full
5. Curriculum Updates  
Lots of courses and programs were reviewed and updated this academic year – Great Job Everybody!
  - a. DE – Before the end of the school year, can I please get a listing of the courses in each discipline that we ought to develop for DE. This is not a commitment that you will do the work, just an idea of where there is a need for more online versions of classes for future planning purposes.
6. Guided Pathways & Program Pathways – all program pathways have been updated, copies attached. These pathways will be integrated into the Guided Pathways program in some fashion TBD. Our Guided Pathways team is looking at some other schools to see how they are using them effectively. This will be a major project next year so if you want to check out what some other schools are doing and where we might be headed, here are a couple nice websites:  
Bakersfield College <https://programmap.bakersfieldcollege.edu/academics>  
Sierra College <https://academics.sierracollege.edu/explore-our-academic-programs>
7. SLO – PLO Mapping and Program Review  
IVC's SLO Website has been updated, check it out for new information and ideas.  
I will be working on this over the summer so that we can all get started immediately in the fall semester to get our SLOs, PLOs, and program reviews updated during the Fall semester. I will be scheduling a work session early in the fall semester with each discipline. I would be happy for any assistance, advice, insights on this over the summer.
