

Imperial Valley College
Where Success Begins

APPLICATION FOR ADMISSION

Welcome to the Imperial Valley College Online Application

If you have already submitted your application to Imperial Valley College, you can access Special Links and Opportunities and your Application Confirmation by going to My Applications.

The California Community College System offers an Open Admission Policy

A message from the campus:

We are pleased you are interested in attending **Imperial Valley College (IVC)**. If you have never taken classes at IVC, or have not been enrolled for two or more semesters, you must complete this application process before you will be able to register for classes.

After your application is received and processed, you will be informed through e-mail whether you have been admitted, or if additional information is needed. The e-mail message will include your user identification number which will be used on all your IVC records in the future. If you do not have an e-mail address, you will be given one for your use.

The first step after you input your name will be to select a username and password. Write both down. You will need them if you use the program again in the future.

Please [click here](#) to open a window with tips to help you as you work through the application. You may keep this window open and move it around your screen until you finish.

How to Use the Imperial Valley College Online Application

To complete the online application, simply type your answers in the corresponding fields or select your answers from the popup lists (where applicable).

After you complete a screen, click the **[Next]** button at the bottom or on one of the sections listed on the left column to move to a different screen. Before you are allowed to jump screens, we will inspect your data on the current screen for errors or inconsistencies. If errors or omissions are found, you will be returned to the screen to correct your answer(s). Otherwise, your data will be saved and you will proceed to the requested screen. We also allow you to skip to another screen without your new data being saved. Be aware that if you use the Skip & Jump function on the left column, data on the current screen will not be
