A. ILO Survey - Question Review

- Possibly include an equity question
- Question 13: Through my educational experience at Imperial Valley College, I can identify the contributions of people from a different economic, social, racial or ethnic background than my own.
 - Patrick Kjellander - Comment: Use the words "appreciate and understand" instead of "identify the contributions..."
- Question 14: Through my educational experience at Imperial Valley College, I can use equations to analyze and solve problems.
 - Patrick Kjellander - Comment: is this referring to mathematical problems or problems in general?
 - Members agreed that this may be confusing for students
 - Members agreed to replace the word "equations" with "critical thinking".
- Members agreed that the remaining question were still relevant.
- Ideas for additional questions:
 - Through my educational experience at Imperial Valley College I feel well-prepared to enter the work force and/or transfer to a 4-year university (Patrick)
 - Students will recognize and identify equity, diversity, inclusion and global consciousness as it applies to people and the world today. (Yolanda)
 - I feel like I was informed on where I could find resources that were appropriate to my situation/that fit my needs as a student (Patrick)
 - I feel like I was treated with respect and dignity by my professors and peers regardless of my age, race, gender, or disabilities (Patrick)
 - How prepared do you feel you are, in what areas do you feel you were unprepared (Jill)
- The equity question is trying to address if students are being treated fairly, do they feel they know where resources are that are available to them.
- Kevin will add some of the suggested questions and bring them back to the next meeting
- Johnathan was asked for student perspective. Questions look good, and he has nothing else to add.
